	Workforce System Technical Assistance Collaborative	https://www.grants.gov/web/grants/view-opportunity.html?oppId=335390	This Announcement solicits applications to establish and operate a Workforce System Technical Assistance (TA) Collaborative over a 3-year (36-month) period of performance from an anticipated start date of February 2022. The Workforce System TA Collaborative is an entity or consortium of partners that, in close coordination with the U.S. Department of Labor (DOL), will plan, develop and deliver TA to the public workforce system, considered here as primarily Workforce Innovation and Opportunity Act (WIOA) Title I and Wagner-Peyser Act Employment Service grantees and required partners of the one stop delivery system, where TA to a broader range of partners improves WIOA Title I and Wagner-Peyser Act service delivery. The Collaborative will respond to the needs identified by the WIOA Title I and Wagner-Peyser Act grantees and plan and deliver a comprehensive approach to TA, in consultation with DOL, aimed at improving the quality of employment and training services provided to the nation’s job seekers and employers. To further the goal of improving public workforce services, the Collaborative will assist grantees in complying with federal requirements and in achieving equity in service delivery and outcomes for people of color and historically marginalized populations, including individuals with disabilities. Note that the term “Collaborative” does not refer to a physical location or center.	Department of Labor Employment and Training Administration	Estimated Total Program Funding: \$3,500,000 Award Ceiling: \$3,500,000 Award Floor: \$0	Closing date for applications: 12/8/2021	Eligible applicants are organizations that possess the internal capacity, external relationships, and expertise in workforce development that will enable them to deliver TA services on a national, system-wide scale to the public workforce system. The following entities are eligible to apply: non-profit organizations and for-profit businesses; educational institutions, including community colleges, universities, and research institutions; labor organizations or trade unions; or state governments and state workforce development boards, or private institutes or independent policy research organizations.

	Improving Undergraduate STEM Education: Education and Human Resources	https://www.nsf.gov/pubs/2021/nsf21579/nsf21579.htm	<p>The IUSE: EHR is a core NSF STEM education program that seeks to promote novel, creative, and transformative approaches to generating and using new knowledge about STEM teaching and learning to improve STEM education for undergraduate students. The program is open to application from all institutions of higher education and associated organizations. NSF places high value on educating students to be leaders and innovators in emerging and rapidly changing STEM fields as well as educating a scientifically literate public. In pursuit of this goal, IUSE: EHR supports projects that seek to bring recent advances in STEM knowledge into undergraduate education, that adapt, improve, and incorporate evidence-based practices into STEM teaching and learning, and that lay the groundwork for institutional improvement in STEM education. In addition to innovative work at the frontier of STEM education, this program also encourages replication of research studies at different types of institutions and with different student bodies to produce deeper knowledge about the effectiveness and transferability of findings.</p> <p>IUSE: EHR also seeks to support projects that have high potential for broader societal impacts, including improved diversity of students and instructors participating in STEM education, professional development for instructors to ensure adoption of new and effective pedagogical techniques that meet the changing needs of students, and projects that promote institutional partnerships for collaborative research and development. IUSE: EHR especially welcomes proposals that will pair well with the efforts of NSF INCLUDES (https://www.nsf.gov/news/special_reports/nsfincludes/index.jsp) to develop STEM talent from all sectors and groups in our society.</p>	National Science Foundation	Estimated Total Program Funding: \$63,000,000 Award Ceiling: \$3,000,000 Award Floor: \$300,000	Closing date for applications: 7/21/2021

NJ	Manufacturing Equipment and Employment Investment Tax Credit	http://www.nj.gov/njbusiness/finance/manufacturing/	The purpose of the Manufacturing Equipment and Employment Investment Tax Credit is to encourage investment in certain manufacturing equipment in New Jersey and to provide the taxpayer with incentive to increase employment at New Jersey locations by employing New Jersey residents. A taxpayer must invest in qualified manufacturing equipment in its tax year beginning on or after January 1, 1994 in order to qualify for this tax credit. Such investment has the benefit of allowing a tax credit computation for the tax year in which the investment was made as well as each of the following two tax years. The tax credit computation for the first year is based on the cost of the qualified manufacturing equipment placed in service in New Jersey during that tax year. This portion of the credit is calculated in Part I. The computations for the two following tax years are based on the average increase in New Jersey residents employed in New Jersey subject to a limitation based on the cost of the investment made in the first year. The portion of the tax credit for the two tax years following the year of investment are calculated in Parts II and III of this schedule.	State of New Jersey Business Portal	The credit allowable for any given year cannot exceed an amount which would reduce the total tax liability below the statutory minimum. Parts I, II and III of this schedule relate to	N/A

VA	Virginia Registered Apprenticeship	https://www.doli.virginia.gov/apprenticeship/	Employers may claim a tax credit for providing eligible worker retraining to qualified employees including apprentices that are approved by the Virginia Apprenticeship Council. The credit is 30 percent of all training costs through a community college, or up to \$100 annual credit for each employee if incurred at a private school.	Virginia Apprenticeship Council			
WI	Industrial Development Revenue Bond	http://in.wisconsin.com/grow/assistance/industrial-revenue-bond/	IRBs can be used to stimulate capital investments and job creation by providing private borrowers with access to financing at interest rates that are lower than convention bank loans. The Wisconsin Economic Development Corporation (WEDC) allocates the bonding authority or the volume cap for the program.
